**The assessment tools and processes used for measuring the attainment of each of the Program Outcomes and Program Specific Outcomes are as mentioned below:**

Our institute used above method for evaluating the attainment of CO by using student's marks, where the student marks consists of (1) Final exam and (2) Internal Assessment [Tests, Assignments, Project, class performance, extracurricular activities etc.].

Average attainment in Direct Method= University Examination +Internal assessment

End of Session University Examination: At the end of each session university conducts examinations and the result is published by university. The course outcomes are measured based on the course attainment level fixed by the program. The results are analyzed course wise and program wise.

Assignment: Assignments/Project is given at to the students. The assignments are allotted to students, such that students will refer the text books and good reference books to find out the answers and understand the expected objective of the given problem. It is the responsibility of the concerned subject teacher to ensure that most students are able to work out the assignments/projects honestly.

Our Institution has defined the following attainment level

Attainment Level 0: <50% of students score more than 40% marks out of the maximum relevant marks.

Attainment Level 1: 50% of students score more than 40% marks out of the maximum relevant marks.

Attainment Level 2: 60% of students score more than 40% marks out of the maximum relevant marks.

Attainment Level 3: 70% of students score more than 40% marks out of the maximum relevant marks
